REF. 272719229

Electric Grill suzuka 2200w Black, Large Ceramic Surface, Non-Stick, Adjustable Thermostat 8x67,5x29cm

Ean: 8435684369716
Serie: SUZUKA
Color: Black

Electric griddle from the SUZUKA series in BLACK. Made from metal and polycarbonate with a non-toxic ceramic coating, giving greater protection and performance when working at high temperatures. It has a power of 2200 watts; its non-stick plate is large, enough for 8 portions, 51,5X25 centimetres, and its design, with an oil drainage hole in the centre set at a slight 5º incline, lets excess fat flow into the drip tray, helping to prepare healthier recipes and achieve the perfect roasted finish, not fried. The pressed aluminium heats up quickly, ready in no time to start preparing food, and with a DIMMABLE THERMOSTAT, to cook at the desired temperature, fast or slow, or simply keep food warm. Easy to use and to clean, both its cooking surface and its grease-collecting tray, and also easy to store and transport. It has dimensions of 8x67,5x29 centimetres.
