Cannon Heater Diesel Alpine 50kw Black/yellow 45l Flow rate 1100m³/h Safety Protection, Temperature Control 71x105x48,5cm

Ean: 8435684371474
Serie: ALPINE
Color: Black/Yellow

Direct diesel cannon heater from the ALPINE series in BLACK/YELLOW. Made from metal, stainless steel, ABS and polycarbonate. It generates hot air by direct combustion of diesel, equipped with a heating power of 50,000 watts (50KW) for heating and drying; the hot air flow it generates is 1100 m³/h, distributing heat in a homogeneous and instant way. It comes on a trolley with an integrated fuel tank with a capacity of 45 litres and a consumption of 4 litres/hour. With an outdoor protection rating of IP24, dust- and splash-proof, and with a 220-240V mains connection. Its combustion chamber is made of STAINLESS STEEL, the best option to withstand high temperatures in the most efficient way, with high resistance to corrosion and less maintenance; its THERMOSTAT ADJUSTMENT AND TEMPERATURE SENSOR help you choose and maintain the right temperature at all times, also providing great energy savings. With an OVERHEATING PROTECTION safety system, switching off automatically when it reaches the selected temperature, and also with CUT-OUT PROTECTION: if it restarts after a power cut, it switches off automatically. It has a very functional design, easy to use and move thanks to its bracket with wheels and carry handle, for heating garages, workshops, warehouses, storage rooms, work areas and any large, always WELL VENTILATED room, safely and with great efficiency. It has dimensions of 71x105x48,5 centimetres. Available in this series are cannon heaters with 20,000w, 30,000w, 50,000w and 80,000w of heating power, with their corresponding sizes and features.
