**Diesel Cannon Heater Dixon 30kw Black/Yellow 19l Flow
720m3/h Safety Protection Temperature Control
58x96x41cm.**

Ean: 8435684371504
Serie: DIXON
Color: Black/Yellow

Direct diesel heater cannon from the DIXON series in BLACK/YELLOW. Made from metal, stainless steel, ABS and polycarbonate. It generates hot air through direct diesel combustion, with a heat output of 30,000 watts (30KW) for heating and drying; the hot air flow it generates is 720 m3/h, distributing heat homogeneously and instantly, and it comes on a cart with wheels and with an integrated fuel tank with a capacity of 19 litres and a consumption of 2.5 litres/hour. With an outdoor protection rating of IP24, dust- and splash-proof, and with a 220-240V mains connection. Its combustion chamber is made of STAINLESS STEEL, the best option for withstanding high temperatures in the most efficient way, with high resistance to corrosion and less maintenance; its THERMOSTAT ADJUSTMENT AND TEMPERATURE SENSOR help to choose and maintain the right temperature at all times, also providing great energy savings. With a safety system for protection AGAINST OVERHEATING, switching off automatically when it reaches the selected temperature, and also with CUT-OUT PROTECTION: if it restarts after a power cut, it switches off automatically. It has a very functional design, easy to use and to move thanks to the bracket with wheels and carry handle, for heating garages, workshops, warehouses, storage rooms, work areas and any large room that is always WELL VENTILATED, safely and with great efficiency. It has dimensions of 58x96x41 centimetres. Available in this series are cannons with 20,000w, 30,000w and 50,000w heat outputs, with their corresponding sizes and features.
